MEMORANDUM FOR THE RECORD

Morning Meeting of 28 November 1969

The Director was out of town. DDCI was in the chair.

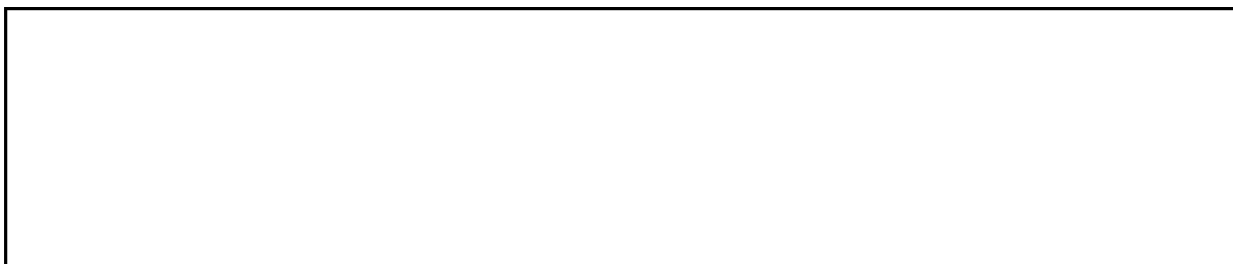

Lehman for Godfrey noted that the West German government is ready to sign the Nuclear Nonproliferation Treaty. He also reported that OCI responded to a White House request for information on the status of infiltration from North Vietnam into the South.

D/ONE reported that USIB members remain unable to agree on adjustments in the naval section of NIE 11-14-69. State has decided to support the existing Agency text. D/ONE said that he will raise the issue with General Bennett.

DD/S reported on the status of discussions with the new Far East Pilots Association (FEPA), which is representing Air America pilots in demands for increased pay and changes in working conditions. The Agency will recognize FEPA if elections establish that it represents a majority of the pilots. FEPA has submitted a ninety-six-page list of demands which would cost about \$4 million in addition to the \$1 million salary increase already given. The situation is complicated by the fact that U. S. labor law does not provide for dealing with a regional labor association overseas.

DD/S reported that the Agency collected \$251,000 in the Consolidated Fund Campaign against a target of \$247,000. Educational Aid Fund collections amounted to \$13,500, and PSAS received \$11,600.

5X1  for Maury reported that the visiting Congressional delegation on 26 November stayed at Headquarters until noon.

DD/S&T reported that the NRO Executive Committee meeting on 26 November reduced the proposed NRO budget [REDACTED] Agency programs came out well under the circumstances. Deputy Secretary Packard has directed the Bureau of the Budget and NRO to give further study to BOB's criticism [REDACTED] Meanwhile, its budget remains untouched, and the program will continue.

25X

25X

DD/S&T reported on the meeting of the SALT Verification Committee on 26 November. He noted that the U. S. Government attitude on some questions has shifted considerably from the views held in midsummer. Differences appear to be widening on some Verification questions.

25X

DDCI reported on the status of NIRB efforts to obtain data from NSA.

MEMORANDUM FOR THE RECORD

Morning Meeting of 28 November 1969

Proctor had nothing to report.

Lehman noted that the Germans had signed the Nuclear Nonproliferation Treaty and that there is nothing new of North Vietnamese infiltration.

Abbot Smith said that NIE 11-14 was delayed on Admiral Gayler's reservations. He felt some more time should be taken (including talking to General Bennett) before going ahead, to avoid a footnote if possible.

X1  had nothing.

Bannerman reported negotiations with the pilots of Air America. The Far East Pilots Association is being accepted as the bargaining agent, subject to an election demonstrating that it represents a majority (which we think it does). A ninety-six-page brochure of demands has been submitted (it would cost another \$4 million over the \$1 million pay raise already granted). We will get a professional negotiator to serve as an assistant to the president. We hope to get a no-strike agreement in war situations, such as Laos. There is no U. S. legal standard applying here, as it is all outside the U. S., so our contract will have to cover the practices.

Bannerman noted that the Agency raised \$251,000 on the UGF Drive, 106 percent of the \$237,000 goal. In addition, the Educational Aid Fund got \$13,500, and PSAS got \$11,600.

SAVA had no report.

Legislative Counsel reported that the Congressional visit was an apparent success, not breaking up until noon.

IG had no report.

OGC had no report.

NIPE had no report.

Duckett reported that the Soviets failed again on an SL-12 test.

25X1

[REDACTED]

25X1

Duckett said that the NRO session had cut the budget from [REDACTED] to [REDACTED]. We came out well, but the fate of follow-on studies is uncertain.

X1

Duckett advised that the SALT negotiations had produced substantive issues which had led to our own search for better definitions for strategic weapons, which is proving difficult. To date DDR&E and JCS are carrying the ball, but we may have to play a more direct part.

Duckett reported that the [REDACTED] issue is unresolved. The money remains in the budget, but decisions on its spending [REDACTED] remain to be made.
